

September 9, 2020

Honorable David L. Bernhardt
Secretary
United States Department of the Interior
1849 C Street, NW
Washington, DC 20240

Dear Secretary Bernhardt:

As South Carolina black church leaders, we urge you to immediately remove William Pendley for Director of the Bureau of Land Management (BLM). Mr. Pendley's words and deeds over the course of decades outline why he is ill fit to serve in a leadership role in government. With his penchant for taking actions against communities of color and native communities, he should not head up the BLM. Overseeing 247.3 million acres public lands would require him to interact with and uphold the interests of nonwhite communities. This is a task he has not only shown disdain for but also has an inability to accomplish.

Mr. Pendley's racist rhetoric and actions are well documented. He has sought to undo protections for sacred sites and has actively worked against the interests of Native Americans and tribal nations. He has represented a county defending the Trump Administration's reduction in size of the Bears Ears National Monument, which is considered sacred to multiple tribes. He also fought against the Interior Department on behalf of the oil and gas company Solenex, which sought to drill in the pristine Badger-Two Medicine area of Montana, considered sacred to the Blackfeet people. These past actions are significant since many of the public lands the BLM manages border tribal land.

His racist rhetoric and actions have not stopped with the discrimination against native people. As a lawyer, he argued for the elimination of the Department of Transportation's program favoring "socially and economically disadvantaged people." He recently stated that "Black Lives Matter was built on that terrible lie — a lie the mainstream media perpetrated, that cowardly politicians, fearful of saying 'all lives matter,' emboldened." He also pointedly asked, "How many have died and how many more will die because of diversity and race-based decision making?" And, Pendley tragically described environmental justice as "(a)nother imaginary issue pushed by progressives." To complete his racist portfolio, he has referred to undocumented immigrants as "a cancer" and faulted them for "violent crime" and "crowded schools."

His targeting of underserved, minority communities is appalling and should immediately disqualify him for serving in any sort of leadership role, particularly the head of a taxpayer-funded agency.

Mr. Pendley has also stated radical anti-science and anti-conservation positions, such as calling climate change “junk science.” Since public lands offer hope at addressing climate change and improving human health, including for communities of color, we cannot stand by and accept his confirmation to this post. COVID-19 has highlighted the urgent need to address climate change and air pollution in order to save black and brown lives.

Mr. Pendley’s extreme views and discriminatory practices are alarming. As a nation we should be working to dismantle institutional racism, not making efforts to advance racist sentiments and actions. Mr. Pendley’s own words and actions make him unsuited to manage the BLM or attend to its mission.

We ask that you remove Mr. Pendley from his position at BLM. He is clearly unfit to lead the BLM or any federal agency.

Sincerely,

Dr. Albert Jones, Bethel AME, Brittons Neck
